

### IF PROBLEM EQUALS:

You farmed out your website to someone who quit their day job, bought an HTML book, and became a "web designer." Their low bid made you happy ... until you saw the results ...

### THEN SOLUTION EQUALS:

The experienced, service-oriented precision team of 2Fellers.com - progressive web design and database solutions to proudly carry your brand.

- Precision web design
- Site maintenance
- Audio/Visual
- Content Management
- Database solutions
- Front end integration
- Back end admin tools
- Advertising partners
- Video production/editing
- VHS to DVD
- Webcams

In 1996, two fellers met online, recognizing that the Internet was today's modern gold rush, but frustrated by the proliferation of rubber-stamped, clumsy and inept websites cluttering the virtual landscape. Together, they've built hundreds of websites over the years and perfected their craft while staying two steps ahead of the technological curve.

[About us](#) | [Contact us](#)

A truly effective online experience  
- one with real, tangible results -  
involves intelligent presentation,  
efficient content delivery and  
databased storage solutions.

We currently are accepting a  
limited number of new clients.

### THAT OLD ADDAGE:

There is an old saying that you **get what you pay for**. That is true in many things, especially with online business websites. There are many people out there who are more than willing to build you a cheap site...

### AUXILIARY SERVICES:

In addition to precise website creation to exacting standards, the following services also are available:

- Blogs
- Forums
- Discussion lists
- Announcement lists
- Domain name registration
- Domain hosting
- E-mail accounts
- Consultation
- On- and Off-site training
- PHP/MySQL
